

## **DESCRIPTION**

I am technophile and graduated from the University of Quebec in Outaouais in the Bachelor of Computer Science program. I am proficient in various programming languages as well as data analysis tools and some applications from the Microsoft suite.

## **SUMMARY OF SKILLS**

- Ability to communicate effectively and write in French and English (intermediate level).
- Advanced knowledge of data analysis tools: advanced Excel, Power BI.
- Programming languages: SQL (Oracle, Postgres, SqlServer), DAX, Python, Javascript (NodeJs, ExpressJs, React, Jquery), CSS (TailwindCSS, CSS3), HTML, Oracle APEX.
- Other tools and features: API REST, Supabase, Git, Github, Sourcetree, Selenium, Resend, Zoom.
- Microsoft applications: Word, Excel, One note, Outlook, Teams, SharePoint.
- Using AI assistants to optimize, debug code, and generate complex queries.
- Analytical mind and problem solving.
- Flexibility in the face of new tools, methods or business needs.
- Attention to detail and rigor.
- Dynamic, motivated and organized.
- Intellectual curiosity.
- Ability to work in a team.
- Explore all of my skills through my portfolio [here](#).

## **PROFESSIONAL EXPERIENCE**

### **IT Developer Analyst**

**February 2022 - To date**

**SOUS-SECRETARIAT AUX POLITIQUES BUDGETAIRES ET AUX PROGRAMMES, Treasury Board | Québec, Québec**

- Data visualization and dashboard creation (Pivot Tables, Power BI Report).
- Data cleaning and preparation.
- Complex SQL queries (joins, subqueries).
- Creation and management of PL/SQL packages.
- Using triggers and functions.
- Development of interactive user interfaces with Oracle APEX.
- Customization via JavaScript, CSS and HTML.
- Carrying out automated tests (Java / Selenium / Microsoft Edge).
- Writing documentation.

### **Teaching assistant**

**September 2023 – April 2023**

University of Quebec in Outaouais | Gatineau, Québec

- Assisting the instructor in preparing tutorials for the “Database Techniques” course and teaching materials.
- Leading tutorials to reinforce the concepts taught.
- Correction of assignments and assessments with constructive feedback.
- Individual monitoring of students experiencing difficulties and provision of additional resources.
- Educational monitoring to stay up to date on teaching methods and advances in the field.

## **STUDIES**

### **Bachelor of Computer Science**

**January 2020 - Avril 2023**

University of Quebec in Outaouais

## **INTERESTS AND HOBBIES**

- Reading, walk
